## Residential - Sofa Sleeper System (2500 Series)

### Available Sizes

Width	2500 Series Mattress Spec.
44"	Thickness: 4" - 4 3/4"
60"	Length: Max 71" - 72"
68"	Width: Unit size minus 8"

Mattress Thickness: 4" - 4 3/4"

### Seating Applications

Ottoman Love Seat Sofa Sectional

#### 1 Anti-Tilt

A necessary safety feature, keeping the unit in contact with the floor at all times in the open position.

#### 2 Double-Locking TV Headrest

Provides added comfort while lounging or watching TV by raising the upper body. To reduce field failures, the headrest also restricts the unit from being cycled while in the "up" position.

#### 3 Body-Support Tubes and Wires

Together they enhance support in the body section to eliminate sagging. The dual-welded offset tubes keep the unit square and enhance unit strength.

#### 4 Contoured Seat Section

Offers a wider seating area by allowing seating close to the arm.

#### 5 Optional Seat-Support System

Provides support while sleeping, plus adds durability to the overall unit. Support wires also give the quality feel of stationary seating.

#### 6 All-Round Tubular Frame Construction

Provides a smooth and visually appealing look with improved safety (eliminated pinch points) and comfort in the seated position.

#### 7 Pro-Deck

Two-ply ballistic decking material enhances durability and visual appeal.

#### 8 Dual One-Piece Round Tubular Legs

Provides enhanced stability and strength, allowing the unit to be operated from the center or side position. Forest black color.

#### 9 Engineered Low-Profile Linkage

Keeps all metal parts below the mattress line, while being the easiest in the industry to operate.
